

DataCan is happy to be sponsoring local athlete Marni Stokoe. Marni Stokoe is an 18 year old biathlon athlete from Red Deer, Alberta. She began with the sport of biathlon when she was 14 years old. For the first two years she trained with Foothills Nordic, and the next two years training with the Canmore Nordic Biathlon Team. She has just been accepted to the new Biathlon Training Center in Canmore. After recovering from an injury she was able to compete and medaled in the two provincial races she participated in, and secured a position on the Alberta team to travel to Charlo NB for biathlon nationals.
